AMERICAN MAILING MACHINES

FPi 700

FPi 700
Folder Inserter

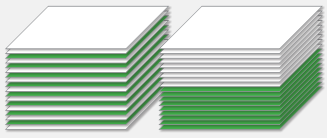
Load. Press Start. Done.
The FPi 700 is a small and mighty folder inserter that feeds paper, folds it, inserts it into an envelope and then seals the envelope making the mail creation process simple and efficient. This adaptable machine will process a variety of media types including custom document and envelope sizes, perforated and pre-folded paper, large envelopes and more. Its Smart Feeders provide tray notifications and linking capabilities to adapt to make jobs efficient. The FPi 700 also offers increased security with double feed detection, which measures the thickness and length of the media in each feeder to ensure the correct documents are inserted into the correct envelope each time. Additional features include an envelope sealer and ability to fold up to 5 pages in half, making the FPi 700 the perfect match for time-consuming manual processes. The FPi 700 is a perfect companion for your business applications.

Intuitive Interface

Easy-to-use, full color, 5” glass touchscreen, controls all machine functions. Program up to 15 jobs and create jobs in less than 30 seconds.

Folding Technology

This powerful, quiet, folding technology is capable of simultaneously folding up to 5 sheets of paper in half. There are 4 different fold types available: C, V, Double-V and No-Fold (insert only).



Versatile and Efficient

Customizable Smart Feeders allow the processing of multiple sized documents and inserts into an envelope. Process over 39 different types of jobs.

Powerful Productivity

- Processes up to 1,350 sealed envelopes per hour
- 15 programmable jobs for one touch operation
- Feeder linking for increased sheet capacity
- Load while operating for continuous processing
- Semi-Automatic mode for folding up to 5 sheets
- Insert nesting within the folded & stuffed document
- Create a Tri-Fold brochure without inserting
- Clamshell opening for easy-access to sealer reservoir

Pair with PostBase® Vision

Stylish. Secure. Connected.

Insert-only applications (no folding)
Collate sheets before folding
Piece counter (per job)

Mailroom Furniture

Strong, level furniture reduces equipment downtime and service calls by providing a strong, stable platform, leaving your mailroom fully functioning and efficient. FP furniture eliminates worry about wobbly, weak or underrated tables.

Specifications

Technical Data

Dimensions (without exit tray)	26" L x 17" W x 22" H
Feeder Stations	3 media + 1 envelope
Processing speed (envelopes/ hour)	1,650 (1,350 sealing)
Folding capacity (20lb. paper)	5 half fold, 3 letter fold
Job memory capacity	15
Weight	82 lbs.
Noise emission in dB (REF: ISO 11202)	<65 dBA

Capacities

Sheet feeders	100 each (200 linked)
Insert feeder	100 BRE*
Carrier envelope hopper	100 envelopes
Catch tray	100 finished envelopes

Media

Sheet size	7"-14" H x 5.6"-8.9" W
Inserts size	3.5"- 6.22" H x 5.6"- 8.9" W
Carrier Envelope Size	#10 (4.125" H x 9.5" W) & 6" H x 9.5" W
Paper Weight	60 - 120 g/m^2 (16-32 lbs. bond)

* BRE (Business Reply Envelope)
