FPi 1015

Folder Inserter

FPi 1015
Folder Inserter

Load. Press Start. Done.
The FPi 1015 is an out-of-the-box solution for the growing office. Fold and insert paper into envelopes fast and accurately, much faster than by hand. This small powerhouse of a folder inserter will empower you. Simple and powerful features, like the envelope sealer, make the FPi 1015 an incomparable asset to a growing office. Save time and money by automatically processing business-critical documents into folded, stuffed, and sealed #10 envelopes. Additionally, expand your marketing reach by adding promotional inserts, reply envelopes, or cards to your mailings without expending any more time from your busy schedule or postage from your budget.

Not only does the FPi 1015 save you time and money, and increase security with its double feed detection, it also takes the manual human factor out of the equation. This small and efficient machine offers a professional, secure, and quick folding and inserting process for your business.

Easy User Interface

Saving time from the start with the simple user process with the FPi 1015. The machine makes folding and inserting as easy as: walking up to the machine, selecting your job profile, pressing test, and pushing start.

Small Footprint

The FPi 1015 small footprint makes it a perfect candidate for the cramped and growing mailroom. It can fit conveniently next to the postage machine or next to a copier.

Document Feed Detection

Double Document Detection measures the pages before they reach the envelope to check the thickness and length of the media to ensure the correct documents are inserted into the correct envelopes every time.

Powerful Productivity Features

Control Panel

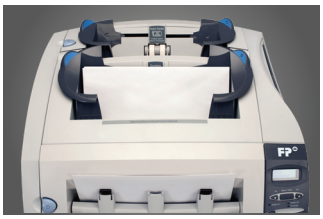
The simple and straightforward control panel makes job selection easy enough for anyone in the office to walk up and use it immediately. The required trial piece per job guarantees accuracy and eliminates operator error.

Document Feeders

The FPi 1015 offers a Convenience Feeder for Daily Mail pieces, manually feed up to 3 sheets stapled or unstapled. Additionally, the optional Multi-Sheet Feeder offers the ability to feed one sheet or two sheets collated from the 2nd feed tray.

Insert and Envelope Feeders

Open up marketing opportunities, without increasing postage spend by inserting marketing pieces or a pre-folded brochure into your invoices. Easily use the envelope feeder to include a reply envelope to increase the likelihood an invoice will be paid faster.



Sealer

Process mail securely using the integrated sealer to process invoices, statements, healthcare and legal documents, and more. Give yourself peace of mind knowing that sensitive documents are processed with the most privacy possible.

Pair with PostBase® Vision

Stylish. Secure. Connected.
